## SCOPE AND CONTENT NOTE

The "*Looking Back at Tennessee*" Photograph Collection, containing 7726 items, spans the period c. 1890-1981, although the bulk is largely concentrated in the years 1900-1940. The photographs have been grouped under the following subjects: agriculture/landscape, architecture, business/industry, cemeteries, costumes, crime, disasters, education, folk customs, home/domestic services, military/public service, portraits, public events, recreation/entertainment, religion, towns and cities, and transportation. Specific sights and ways of life in Tennessee recorded includes early automobiles, baptisms and revivals, churning butter, Civilian Conservation Corps, Civil War veterans, floods, German Prisoner-of-War Camp (Cumberland Co.) moonshine still raids, Mule Day (Maury Co.) quilting, steamboats, threshing, "Tom Thumb Weddings," train wrecks, traveling salesmen, watermelon eating, etc.

During 1986, after advanced publicity, staff personnel from the Tennessee State Library and Archives visited the county seats of thirty nine counties and selected photographs to be copied. Owners of photographs to be duplicated were asked to submit information (subject, date, location, classification, and significance) about their pictures in a data sheet provided-see "Information Sheet-*Looking Back at Tennessee*." Each owner or their agent was also asked to sign a "Terms of Accession" agreement outlining the conditions of use of these photographic records copied by the Tennessee State Library and Archives. Individual loan agreements are arranged by county in the collection.

The photographs have been arranged alphabetically under the name of the county where the pictures were copied. Each photograph is identified by the county abbreviation and numbered consecutively within that county.

A "Subject Index" is provided for most of the photographs in the collection. In many instances cross references are available.

Negatives for the photographs are maintained at the Tennessee State Library and Archives.

By reflecting certain periods of life in the past, some traditional craft, or artifact of long ago, the "*Looking Back at Tennessee*" Photograph Collection preserves a permanent visual record of ways of life in Tennessee which is rapidly disappearing from memory.
